TUBERCULIN TEST CONSENT

Dear Parents / Guardians:

State Law 7 AAC 27.213 requires that each kindergarten, 7th grade and new-to-the-district child receive a tuberculin (TB) skin test.

A tuberculin skin test is not required if the school is provided with one of the following:

1. Documentation showing negative results of a test administered within the past six months or positive results at any time from the intradermal PPD skin test.
2. Affidavit of a licensed physician stating the opinion that the test would be injurious to the health and welfare of the child or members of his/her family or household.

NOTE: Religious exemption is not allowable under Alaska State Law.

Normally this TB test is given to your child at school. If you choose you may take your child to the Public Health Department or your doctor's office. Written verification of the test date and its results must be provided to the school nurse for documentation purposes.

If you have any questions please feel free to call me here at the school.

_____ _____

RN, School Nurse Date

TUBERCULIN TESTING MUST BE GIVEN WITHIN 30 DAYS OF THIS NOTICE

If you choose to have the TB test given at school please use the permission slip below.

****

TB CONSENT FORM
