- Teachers needing a quick response to questions can Lync their building coach. If the coach is available, the teacher will get a quick reply. Otherwise, the coach will make contact at their earliest convenience.
- The committee recognized the need for either onsite or adopted materials training through Lync. Teachers will be surveyed (high, elementary, K-12) to assess the need before moving forward. Identifying site “experts” in this area would build capacity and facilitate support for use of adopted resources.
